

News Release

RAVEN ENERGY SELECTS WELLPOINT IFS TO REPLACE CGI'S WOLFPAC

CALGARY, Alberta, November 23, 2005 – WellPoint Systems Inc. ("WellPoint") (TSX-V:WPS) today announced that Raven Energy Ltd. ("Raven") (TSX-V: RVL) has agreed to implement WellPoint's Integrated Financial System (IFS) to replace their existing financial management solution, CGI Wolfpac.

Made commercially available on September 1, 2005, WellPoint IFS v2.0 is a next-generation technology based on the Dynamics AX platform from Microsoft. Unlike today's existing Oil & Gas accounting applications that were designed as standalone systems, WellPoint IFS is architected to provide Oil & Gas customers with industry-specific features (i.e. Division of Interest (DOI) capability, Authorization for Expenditure (AFE) processes, etc.) as well as the option to add integrated functionality (i.e. Human Resource Management, Customer Relationship Management, Payroll, etc.) when and if it is required.

For Raven, WellPoint IFS represents a contemporary technology that not only provides them with comprehensive O&G accounting functionality but it also provides improved levels of scalability, configurability and integration capability. It was the vast potential associated with these capabilities that drove Raven to select WellPoint IFS over competitive systems like P2 Energy Solution's Qbyte FM and CGI enVision.

"Raven Energy is exactly the kind of visionary company with which we wanted to establish a partnership," says Tom Mawhinney, Vice President of Sales & Marketing for WellPoint Systems. "Raven was able to identify the many competitive advantages associated with implementing IFS and our expectation is that many other companies will soon recognize the same opportunity."

About Raven Energy Ltd.

Raven Energy is a public oil and gas exploration, development and production company actively identifying and evaluating exploration prospects in the oil and gas industry in the Province of Alberta.

About WellPoint Systems Inc.

WellPoint Systems provides premier software and related services for managing critical operations within the Energy industry. Aligning tightly with Microsoft Corporation, WellPoint is the only Independent Software Vendor (ISV) and Microsoft Dynamics partner in the Energy sector. It is breaking new ground with the creation of a more comprehensive, integrated Energy software suite based on existing Microsoft ERP technology that utilizes state-of-the-art Dynamics AX® and .NET architectures.

Founded in 1997, Calgary based WellPoint Systems also has operations in Houston, Texas through its subsidiary company, WellPoint Systems, Inc.

WellPoint is publicly traded on the TSX Venture Exchange under the symbol WPS.
