This document contains forward-looking statements. Some forward looking statements may be identified by works like "expects", "anticipates", "plans", "intends", "indicates" or similar expressions. The statements are not a guarantee of future performance and are inherently subject to risks and uncertainties. The Company's actual results could differ materially from those currently anticipated due to a number of factors, including, but not limited to, successful integration of structural changes, including restructuring plans, acquisitions, technical or manufacturing or distribution issues, the competitive environment for the Company's products, the degree of market penetration of the Company's products, and other factors set forth in reports and other documents filed by the Company with Canadian securities regulatory authorities from time to time. In particular, IDEAS' revenue assumptions for fiscal 2006 could be impacted by the failure of IDEAS to successfully effect anticipated license sales or by either a decline

in demand for potential services or slower than anticipated timing of such demand as third parties integrate IDEAS' products into their operations. The Company's assumptions respecting these revenues are based on historical financial performance of IDEAS, which the Company anticipates would continue in the future. **The TSX Venture Exchange does not accept responsibility for the adequacy or accuracy of this release.**
