## WELLPOINT SUSTAINS RAPID INTERNATIONAL GROWTH RATE WITH FINANCIAL MANAGEMENT APPLICATION

CALGARY, Alberta, August 21, 2006 - WellPoint Systems Inc. ("WellPoint") (TSX-V:WPS), today announced that over the past three months the Company has added ten more IDEAS clients to its already impressive list of international clientele. These new clients, with international operations ranging from Nigeria to Columbia, have added more than \$850,000 in product and service revenue and push WellPoint's total number of IDEAS customers to over 200 members.

The IDEAS financial management application is the de facto standard for oil & gas companies with international operations. Now residing within WellPoint's progressive development environment, the potential of the IDEAS solution is brighter than ever.

"The IDEAS application has been the dominant point solution on the international scene for many years now," says Tom Mawhinney, President of WellPoint Systems. "Now that the application has a future within WellPoint's more scalable Integrated Financials (IF) framework, customers are quickly realizing that this solution has the potential to extend across their entire operation, both international and domestic."

The Company is also announcing that it has filed amended interim financial statements and Management's Discussion and Analysis for the quarter ended March 31, 2006 on SEDAR. The amendments have no material impact on the Company's results or cash position.
