

News Release

WELLPOINT SYSTEMS ANNOUNCES FINANCING WITH QUORUM FUNDING CORPORATION

CALGARY, Alberta – February 14, 2008 – WellPoint Systems Inc. (WPS:TSX-V) today announced that it has signed two non-binding letters of intent with Quorum Funding Corporation in respect of two private placement offerings of convertible secured debentures to investment funds managed by associates of the Quorum Funding Corporation (the "Quorum Offerings").

One offering will consist of a convertible secured debenture in the principal amount of US\$15,200,000 (the "QOGT Debenture"). The QOGT Debenture will mature five years from the date of issue, bear interest at an annual rate of 7.75% and be convertible into common shares of WellPoint at the option of the holder at any time prior to the maturity date at a conversion price of \$0.90 per share. Shareholder consent will be required prior to completing this offering. The proceeds of the QOGT Debenture will be used to repay the indebtedness incurred in connection with the acquisition of the business of Bolo Systems, Inc. which will greatly reduce WellPoint's cost of capital.

The other offering will consist of a convertible secured debenture in the principal amount of CDN\$2,700,000 (the "QIP Debenture"). The QIP Debenture will mature 18 months from the date of issue (unless otherwise agreed), bear interest at an annual rate of 7.75% and be convertible into common shares of WellPoint at the option of the holder at any time prior to the maturity date at a conversion price of \$0.60 per common share. In the event that the holder elects not to convert the QIP Debenture, such holder shall be entitled to receive at the maturity date 780,000 common shares of WellPoint at a deemed price of \$0.40 per share. The number of common shares to be issued to the holder on the maturity date will be reduced pro rata by the amount of principal which is converted into common shares. The proceeds of the QIP Debenture will be used to develop the WPS Enterprise Asset Management, WPS Energy Broker Solutions, for ongoing product R&D and for general working capital purposes.

The conversion price of the QOGT Debenture and the QIP Debenture is subject to customary adjustments, including an adjustment downwards if WellPoint completes an equity financing at a price less than the then current conversion price. WellPoint's obligations under the QOGT Debenture and QIP Debenture will be secured by a pledge of all the assets of WellPoint and its material subsidiaries.

Transaction fees are payable upon completion of the Quorum Offerings.

The Quorum Offerings, each of which is expected to close in February 2008 are subject to the receipt of all necessary approvals, including the approval of WellPoint's board of directors and the TSX Venture Exchange.

About WellPoint Systems Inc.

WellPoint Systems provides premier software and related services for managing critical operations within the energy industry. Aligning tightly with Microsoft Corporation, WellPoint is the only Independent Software Vendor (ISV) and Microsoft Dynamics partner dedicated to the energy sector. It is breaking new ground with the creation of a more comprehensive, integrated energy software suite based on existing Microsoft ERP technology that utilizes state-of-the-art Dynamics AX® and .NET architectures. WellPoint became a Microsoft Gold Certified Partner in 2005.
