

WellPoint Systems Releases WellPoint Intelligent Dashboard

CALGARY, Alberta – August 26, 2009 – WellPoint Systems Inc., (“WellPoint” or the “Company”) (TSX-V:WPS), a leading provider of enterprise software and related solutions to the energy industry, today announced the release of the WellPoint Intelligent Dashboard. The WellPoint Intelligent Dashboard gives users easy point and click access to critical industry and company data – all from a single, central point of access. It places powerful analytical reports and key performance indicators (KPI’s) directly into the hands of executives and operations personnel who need to accurately measure financial, lease and production activity and performance.

“The Dashboard is a very important addition to the WellPoint line of products,” said Richard Slack, President and CEO of WellPoint. “Research has shown that companies actively using dashboards are achieving higher performance than their peers and adding this feature to our product offering highlights our ongoing commitment to providing solutions that help our customers run their businesses better.”

The Dashboard uses SQL Reporting Services and cube technology to aggregate data and measurements from WellPoint’s software as well as third party applications. The system utilizes WellPoint’s data and a standard SQL Datastore to produce Business Intelligence objects. Customers can easily connect to their data in the WellPoint systems and any other SQL compliant system, allowing them to create intelligent dashboards, providing analysis and insightful reports in just a few clicks.

About WellPoint Systems Inc.

WellPoint provides premier software and related services for managing critical operations within the energy industry. As a Microsoft Gold Certified Partner since 2005, WellPoint is the only Independent Software Vendor (ISV) and Microsoft Dynamics partner dedicated to the energy sector. It is breaking new ground with the creation of a more comprehensive, integrated energy software suite based on existing Microsoft ERP technology that utilizes state-of-the-art Dynamics AX® and .NET architectures. WellPoint also provides software and services under the BOLO, IDEAS International and iSoft brands.

Founded in 1997, Calgary-based WellPoint Systems also has major operations in Denver, CO, Houston, TX, Livingston, NJ, Tampa, FL, Tunis, Tunisia and Pretoria, South Africa. WellPoint is publicly traded on the TSX Venture Exchange under the symbol WPS.
